12-month Enrollment Overview

The 12-Month Enrollment component collects unduplicated student enrollment counts and instructional activity data for an entire 12-month period. Using the instructional activity data reported, a full-time equivalent (FTE) student enrollment at the undergraduate and graduate level is estimated. NCES uses the FTE enrollment to produce indicators such as expenses by function per FTE as reported in the IPEDS Data Feedback Report.

Data Reporting Reminders:

- Institutions are now required to use the new postbaccalaureate degree categories (eliminating the first-professional category and reclassifying those programs).

In part A, all postbaccalaureate students are to be reported as graduate students, including any Doctor's - professional practice students (formerly first-professional). In Part B, all postbaccalaureate instructional activity is to be reported as graduate level activity, including any Doctor's - professional practice activity (formerly first-professional). Instructional activity data reported in Part B will be used to calculate your institution's total FTE students.

- Report an alternate FTE, when appropriate. If you have correctly reported your credit and/or contact hour data and the system calculated FTE estimates are not reasonable for your institution, you have the opportunity to enter more accurate FTE data for your institution. This option should be used **ONLY** if the system calculated estimates are not reasonable and your alternate calculation method should be clearly detailed if an edit is received.

12-Month Reporting Period and Instructional Activity Units

Which 12-month period you will use to report your unduplicated count and instructional activity hours?

- July 1, 2009 through June 30, 2010
- September 1, 2009 through August 31, 2010

Undergraduate instructional activity data may be reported in Part B in units of contact hours or credit hours.

Which instructional activity units will you use to report undergraduate instructional activity?

Please note that any graduate student instructional activity must be reported in credit hours.

- Contact hours
- Credit hours
- Both contact and credit hours (some undergraduate programs measured in contact hours and some measured in credit hours)

You may use the space below to provide context for the data you've reported above.

Based on the instructional activity hours reported above and your institution's calendar system, the estimated full-time equivalent (FTE) student enrollment is:

	2009-10	Prior year data
Undergraduate student FTE	10,551	10,371
Graduate student FTE	1,325	1,301
Total FTE students	11,876	11,672

Calendar system (as reported on the prior year IC survey component):

SemesterThe FTE estimates above were calculated using an [FTE Calculation Method](#).

If the FTE estimates calculated are accurate, click 'No' below and save the page.

If they are not accurate, and you have reported the correct instructional activity hours above, click 'Yes' below and save the page. The system will then give you the opportunity to report more accurate FTE numbers. This option should be used **ONLY** if you use a different calculation that leads to more accurate numbers.

Based on the information provided above, would you like to report a more accurate number for FTE enrollment?

 Yes
 No

NCES uses the estimated FTE enrollment to calculate indicators such as expenses by function per FTE reported in the IPEDS Data Feedback Report. **ONLY if the estimate above is not reasonable for your institution**, please provide your best estimate of undergraduate and graduate FTE for the 12-month reporting period:

	2009-10	Prior year data
Undergraduate student FTE	10,551	10,371
Graduate student FTE	 1,767	1,734
Total FTE students	12,318	12,105

Summary screen**12-Month Enrollment Component Summary**

IPEDS collects important information regarding your institution. All data reported in IPEDS survey components become available in the IPEDS Data Center and appear as aggregated data in various Department of Education reports. Additionally, some of the reported data appears specifically for your institution through the College Navigator website and is included in your institution's Data Feedback Report (DFR). The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the College Navigator website and/or your DFR. College Navigator is updated approximately three months after the data collection period closes and Data Feedback Reports will be available through the ExPT and sent to your institution's CEO in November 2011.

Please review your data for accuracy. If you have questions about the data displayed below after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Explanation Report

Number	Source	Location	Description	Severity	Accepted
Global Edits					
1		Perform Edits	The FTE you entered is significantly different from the number estimated above. FTE should be calculated based on the amount of instructional activity in which an average full time student would be expected to enroll in a 12-month period. Please correct your data or explain the reason for this variance and detail the method used to calculate your estimate.	Explanation	Yes
Reason:	The divisor for graduate for a full year is 18 (rather than 24). This computation is based upon an agreement between the three Regent Universities in Iowa and the Board of Regents, State of Iowa.
