Introduction:
This document presents an analysis of the Graduating Senior Survey, given December 19, 1998 and May 8, 1999 prior to Graduation Exercises. Usable responses were obtained from 1,674 students (548 December, 1998 and 1126 May, 1999). Each student was asked to respond to the 48 questions on the survey. In addition, students were asked to provide information about employment plans, their future address and to identify members of the faculty and staff whose efforts especially contributed to their success.

The Graduating Senior Survey was originally developed for use at the Spring 1997 Graduation and has since been used for the December 1997, Spring 1998, December 1998 and May 1999 Graduations. Only minor format changes have been made. The original survey was developed by:

Reinhold Bubser Professor and Associate Dean, Modern Languages
Cindy Carlson Administrative Assistant, Executive Assistant to the President
Pat Geadelmann Executive Assistant, Director of External Relations
Bob Kramer Associate Director, Center of Social and Behavioral Research
Gene Lutz Director, Center of Social and Behavioral Research
Mike Mixsell Academic Administrative Services Coordinator
Robert Wyatt Interim Director of Information Management & Analysis

Methodology:
Data from the December 1998 and May 1999 graduations were combined into a single data base for purposes of analysis. Demographic information was then obtained from Information Technology Services and matched with the file containing student responses to the survey. Data were then analyzed to show patterns of response by various groups. These included: College of major, Transfer status and Ethnicity. Each Group was then subdivided to contrast male/female response. Table II presents summary data for December 1998 and May 1999 to aid in profiling trends.

Cautionary Note:
The student responses presented in this analysis should be considered to be indicative of potential issues rather than definitive statements. As such, all the responses and the comments presented should be examined in the total context of individual Colleges and Departments. Limitations inherent in the mode of data collection should also be noted. Nonetheless, it is the hope of the authors of the study that others will perform additional research on the issues raised in order to improve the total educational experience of students at the University of Northern Iowa.
Results:
Table I provides some general observations on the survey. These observations are intended to stimulate further examination and thought. Table II presents a summary of average responses to individual items for the five times the survey has been used. Both the average response and the percent responding Good/Excellent or Agree/Strongly Agree are presented.

Table III presents a commentary on differences in average responses found within various groups from the combined data of the December 1998 and May 1999 graduations. This commentary is intended to draw the reader’s attention to various patterns but is not meant to exclude the presence of other patterns or relationships. Items with relatively large differences in agreement were cited but were typically limited to three or less observations per item. The number of individuals in the sub-groups was considered but an absolute standard was not used. Thus the comments in this Table should be considered a starting point rather than definitive. Please note also that the level of average responses, as well as differences in average response, may indicate issues for further analysis.

Finally, a detailed analysis of each of the 48 items on the survey is presented. Differences in the average responses of Males and Females are highlighted, as are differences in the average responses found within categories.
Table I
General Impressions

Please note that all relationships mentioned in Table I are drawn from the detailed analysis of individual survey items. The values cited are averages of student responses on the survey instrument with 1 indicating the lowest level of agreement and 5 the highest. The percent rating the item Good/Excellent or Agree/Strongly Agree is also shown.

The best general view of survey results is found in Table II, which summarizes average responses obtained on this survey in the five times it has been used. Figures cited below are based on the average responses for December 1998 and May 1999.

1) Students perceive that their communication skills have been enhanced at UNI.
   Item 1. Rate how well UNI has prepared you for speaking effectively. Avg= 3.92; G&E 77.68%.
   Item 2. Rate how well UNI has prepared you for communicating through writing. Avg=3.93; G&E 76.35%.
   Item 3. Rate how well UNI has prepared you for understanding written information. Avg=4.16; G&E 87.64%.
   Item 4. Rate how well UNI has prepared you for listening effectively. Avg=4.09; G&E 83.12%.

   While averages are relative high, agreement varies by College of Major.

2) Students' perception of their basic computer skills and basic computational skills is mixed.
   Item 5. Rate how well UNI has prepared you for using basic computer skills (word processing, spreadsheets, etc.) 3.84; G&E 68.03%. Note: The percent expressing agreement on this item was 60.1% in May 1997.
   Item 6. Rate how well UNI has prepared you for making basic calculations and computations. Avg=3.88; G&E 69.88%.

   Average responses in this area vary greatly by College of Major.

3) Students do not perceive UNI as a strong contributor to preparing to use a foreign language.
   Item 7. Rate how well UNI has prepared you for using foreign language skills. Avg=2.91; G&E 33.16%.

4) Students perceive that UNI has enhanced their problem solving skills.
   Item 10. Rate how well UNI has prepared you for solving problems. Avg=4.08; G&E 83.19%.
   Item 11. Rate how well UNI has prepared you for learning new things. Avg=4.26; G&E 89.05%.
   Item 12. Rate how well UNI has prepared you for thinking creatively. Avg=4.13; G&E 81.97%.

   Averages are relatively high in this area.
5) Students perceive that UNI has contributed to their professional development.

Item 15. Rate how well UNI has prepared you for conducting yourself in a professional manner. Avg=4.08; G&E 83.19%.

Item 18. Rate how well UNI has prepared you for working under pressure. Avg=4.31; G&E 88.35%.

Item 20. Rate how well UNI has prepared you for working independently. Avg=4.24; G&E 87.38%.

Item 21. Rate how well UNI has prepared you for working with people of diverse backgrounds. Avg=3.95; G&E 73.74%.

Item 22. Rate how well UNI has prepared you for working as a team member. Avg=4.28; G&E 86.69%.

Item 23. Rate how well UNI has prepared you for leading others. Avg=4.09; G&E 80.65%.

Responses in this area are quite uniform and relatively high.

6) Students perceive UNI’s Teaching and Learning Environment as positive but have questions about the purpose and quality of the General Education Program.

Item 24. Most of the courses I took at UNI were intellectually demanding. Avg=3.97; A/SA 87.86%.

Item 25. Most of my instructors were intellectually stimulating. Avg=3.87; A/SA 83.76%.

Item 28. My academic experience at UNI made me want to be a lifelong learner. Avg=4.08; A/SA 87.10%.

Item 30. The overall quality of teaching at UNI is excellent. Avg=4.05; A/SA 88.07%.

Item 31. The overall quality of most General Education courses is excellent. Avg=3.34; A/SA 52.06%.

Item 32. The purposes of most General Education courses are very clear. Avg=3.32; A/SA 52.64%.

Once again, instructors of general education courses may want to consider a clear statement of purpose, or linkage to the student’s overall educational experience, as part of the introduction to the course.

7) Students perceive that they had positive relationships with faculty and other students at UNI and that UNI has a good academic and social climate.

Item 35. The faculty I had contact with were very committed to advancing student learning. Avg=4.14; A/SA 92.23%.

Item 36. At least one faculty member showed an active interest in my educational/career goals. Avg=4.34; A/SA 94.16%.

Item 37. I developed close relationships with other students. Avg=4.30; A/SA 94.80%.

Item 38. I often engaged in social activities with other students off campus. Avg=4.14; A/SA 87.66%.

Item 39. I often participated in University or student sponsored activities on campus. Avg=3.48; A/SA 61.96%.

Item 40. Alcohol abuse is a major problem among students at UNI. Avg=3.08; A/SA 38.42%.

Item 42. Sexual harassment is a problem at UNI. Avg=2.61; A/SA 18.08%.

The overall tenor of this section continues to reflect well on UNI’s efforts to foster a sense of community. Individual items do, however, reflect varying opinions and show that UNI is not immune to problems found elsewhere in society.
8) Students perceive that they received a quality education at UNI and would recommend UNI to others.

Item 46. I believe I have received a high quality education from UNI. Avg=4.23; A/SA 94.15%.

Item 47. I would recommend my major to a prospective student. Avg=4.22; A/SA 90.75%.

Item 48. I would recommend UNI to a prospective student. Avg=4.32; A/SA 94.47%.

While students express concerns in various areas, they value the education they have received at UNI and, in general, would recommend UNI to prospective students.

Introduction to Table II

Table II presents summary information from the five times (May 1997, December 1997, May 1998, December 1998, and May 1999) the survey has been used. The average response to items and the percent responding Good/Excellent or Agree/Strongly Agree are given. The results are remarkably similar. It may be useful to focus on the percent responding Good/Excellent or Agree/Strongly Agree. Whether the percentage achieved is satisfactorily high (or low) is left to the reader, but there is room for movement on several of the items.
