The UNI Student Satisfaction Survey .....	40

## **Introduction**

This report presents a summary of the University of Northern Iowa (UNI) Student Satisfaction Survey. The purpose of this report is to provide summary information on the perceptions of UNI students regarding multiple aspects of student life at UNI, including the academic curriculum, social interactions, university computer services, and library facilities and services. Campus climate is an issue that strongly affects the student's opportunity for success at the university. The goal of this survey is to present a list of issues that the student body feels should be addressed in order to improve the climate on the UNI campus.

## **Method**

Students were presented with the UNI Student Satisfaction Survey questions during the Spring 2005 online registration period between November 11, 2004 – December 3, 2004. A total of 8,879 students responded to the survey. Figure 1 presents the composition of respondents by college. Respondents were asked to answer a set of two paired questions randomly selected from a list of 18 pairs. Each question was answered by approximately 500 students, except for one item. This question, which asked students about personal computer ownership, was matched with eight questions (6.1, 7.1, 8.1, 9.1, 13.1, 14.1, 15.1 and 16.1). The item on personal computer ownership was answered by 3,893 students.

Respondents were randomly presented with two paired questions prior to being advanced to the registration screen. They were then asked to indicate the extent to which they agreed or disagreed to the survey statements on a Likert scale ranging from 1 (strongly disagree) to 5 (strongly agree). Some of the items required the student to indicate a “yes” or “no” response. All survey responses were recorded and compiled into a master file. The survey responses were sent from Information Technology Services to the Office of Information Management and Analysis and converted into a data file. The data were then analyzed to show patterns of response by college. Table 1 presents demographic information for respondents to the UNI Student Satisfaction Survey by college.

Most questions on the Student Satisfaction Survey focused on aspects of university climate directly related to student life and learning. Items such as “I have had a high quality mentoring relationship with a UNI faculty or staff member” assessed student and faculty relationships. Items like “the library usually has the scholarly journals (periodicals) I need for my studies” examined the library services necessary for student success. Other items such as “the UNI computer network is generally accessible after 5 pm from off campus” evaluated student opinion on university computer services. See Appendix A for a complete list of the survey questions.

**Results**

A table and figures containing mean scores for each survey item are presented in the pages to follow. Mean scores are displayed with the “no opinion” response and without the “no opinion” response included. Summary tables and charts of responses to the survey questions showing the number and the percent responding to each question broken down by college are also presented. Data for some respondents was unavailable; therefore, some percentages may reflect this missing data. The following list presents some of the key observations of the survey. Certain patterns of response

may indicate a need for future examination of these relationships in the university environment. Please note that agreement is presented in terms of individuals who responded either “agree” or “strongly agree” to the survey items.

- As a whole, students are satisfied with their experiences with computers at UNI.
  - Slightly more than sixty percent (62.3%) of students indicated that the training they have received at UNI on the use of computers has generally met their educational needs.
  - Approximately sixty percent (59.4%) of the respondents indicated that they have been exposed to the computer tools necessary to use and learn about computers in their chosen profession or field following graduation.
  - The majority of students (71.8%) indicated that computers had been a significant part of their coursework at UNI.
  
- Students appear to be generally satisfied with regard to faculty mentoring and advising relationships at UNI.
  - Almost half of the respondents (46.8%) indicated that they had a high quality mentoring relationship with a UNI faculty or staff member.
  - 53.1% of respondents said that they had received high quality advising at UNI.
  - Approximately fifty percent of students (49.3%) indicated that they have collaborated with faculty or staff on academic or extracurricular activities.
  
- Students perceive that UNI is an entity that fosters the development of multicultural ideas and values in the classroom.
  - Approximately sixty percent (59.2%) of students indicated that their academic major includes information on multiple cultures and points of view.
  - Just over half of all respondents (55.2%) perceived that UNI effectively prepared them to be contributing members of a multicultural / multinational world.

- 52.1% of students said that faculty encourage the expression of diverse points of view in the classroom.
- Students feel that UNI promotes an environment that is accepting of diversity and different ideas and values.
  - 61.0% of students perceive that UNI values all of its members regardless of race, ethnicity, sex, age, sexual orientation, religious beliefs, physical disability, or socioeconomic status.
  - Just over sixty percent of students (62.6%) indicated that UNI provides a welcoming and responsive environment for members of the UNI community who have unique needs that may affect their opportunity for success.
  - 67.1% of respondents said that they had experienced positive social interactions with students who have different backgrounds or beliefs than their own.
  - A small number of students (14.2%) indicated that they had experienced a prejudicial remark or behavior on campus tied to their race, ethnicity, sex, age, sexual orientation, religious beliefs, physical disability, or socioeconomic status.
- Students feel that they are given adequate support in the use of the library and its resources, however many fail to take advantage of the opportunities that exist there.
  - Nearly two-thirds of the respondents (66.5%) had no opinion on the timeliness of the library's inter-library loan service, while 25.4% said they agreed that the service provided them with their requests within a two week time period.
  - Almost forty percent (37.6%) of students agreed that Rod Library instruction sessions (tours, classes, workshops) are helpful in their academic work; however, most (50.1%) were neutral in response to this question.

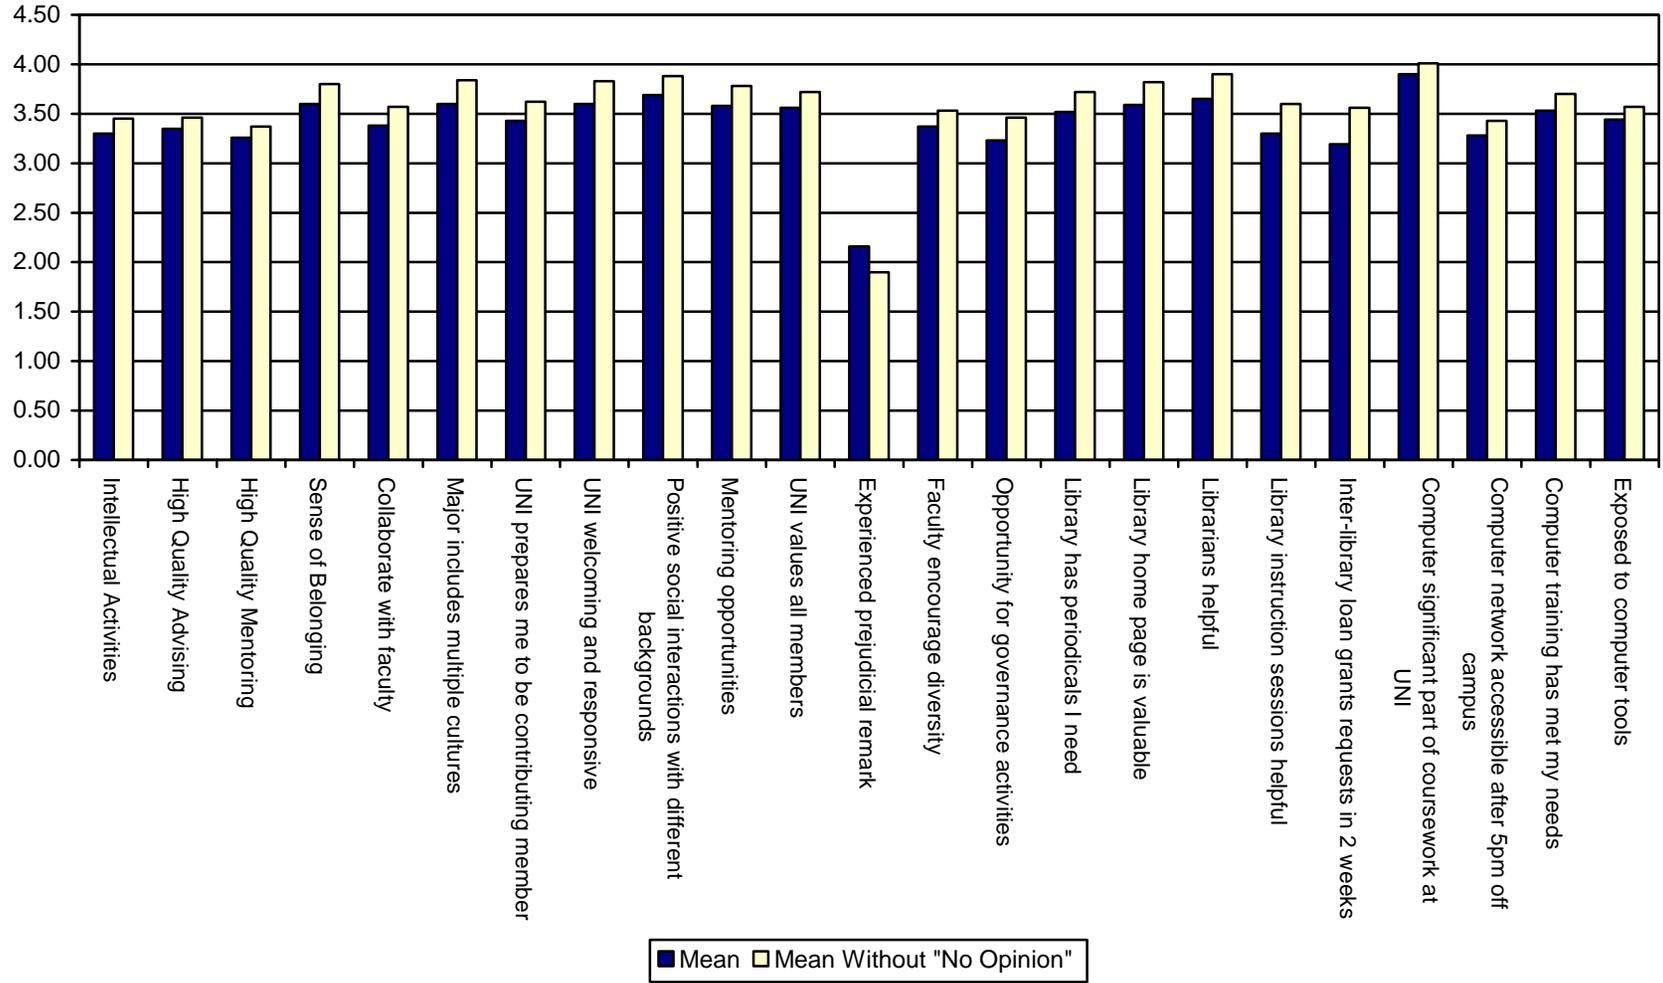

- Nearly sixty percent of the respondents (58.3%) indicated that the library usually has the scholarly journals and other materials they need for their studies.
